

Brookville Lake

guide service

Brookville Lake is a unique fishery stocked with walleye, striped bass, musky, white bass, crappie, large and small mouth bass as well as bluegill and catfish. The lake is 17 miles long and 110 feet deep at the dam. A typical day will start at daylight meeting at **52 Pik-up Convenience Store and Tackle** located in Brookville, where we will take on fuel, ice, bait, fishing license and any last minute necessities. From there it's a 5 minute ride to the boat ramp. We'll catch fish till noon keeping what you want for the dinner table. From there we'll go to a fish cleaning station where I'll clean and bag all the fish for your ride home.

As your guide my goal is to provide you with as much fun as possible while catching fish.
